MTSS-A Guide

Universal Screening Big Ideas

- **Every student in Franklin Pierce Schools will participate in universal screening**
- **Universal screening is intended to:**
  - **Identify students that may need additional instructional support**
  - **Measure growth over time**

Reminders

- **All staff participating in screening will be certified in FastBridge**
- **Teams will administer assessments following standardized directions available in FastBridge**
- **Teams will calibrate (with 95% or greater consistency) each season prior to screening**

READING SCREENING MEASURES		
Fall	**Winter**	**Spring**
Pre-Kindergarten **Administration Time: 10 minutes per student** **These are all Early Reading measures**		
Concepts of Print Onset Sounds Letter Names Letter Sounds	Concepts of Print Onset Sounds Letter Names Letter Sounds	Concepts of Print Onset Sounds Letter Names Letter Sounds
Kindergarten **Administration Time: 10 minutes per student** **These are all Early Reading measures**		
Concepts of Print Onset Sounds Letter Names Letter Sounds	Onset Sounds Letter Sounds **Word Segmenting** **Nonsense Words**	Letter Sounds Word Segmenting Nonsense Words **Sight Words (50)**

Grade 1
Administration Time: 12 minutes per student
 	
*CBM-Reading - A score must be entered for ALL students.
   • **In the fall, administer Sentence Reading and CBM-Reading to all grade 1 students. Use the discontinue rule as needed.**
   • **It is imperative all students have a score. If students are not able to read the Sentence Reading or CBM-Reading passages, please make certain the score of "0" appears or is entered by hand.**		

Word Segmenting Nonsense Words Sight Words (150) Sentence Reading CBM-Reading*	Word Segmenting Nonsense Words Sight Words (150) CBM-Reading*	Word Segmenting Nonsense Words Sight Words (150) CBM-Reading*
Grades 2-8 **Administration Time: CBM-Reading, 5 minutes per student**

	Benchmark 50th -75th percentiles	4.0 - 5.0	4.0 - 6.0	5.0 - 7.0
CBM-Math	Approaching Benchmark 26th – 49th percentiles	3.1 - 3.9	3.1 - 3.9	4.1 - 4.9
CAP	Strategic 11th-25th percentiles	2.1 - 3.0	2.1 - 3.0	3.1 - 4.0
	Intensive 0-10th percentiles	0 - 2.0	0 - 2.0	0 - 3.0

Intervention Big Ideas

- The goal of Franklin Pierce's MTSS is for students to return to and participate in core instruction. Collaboration among staff, programs, and differentiation strategies will improve students' transitions from intervention programs into core.
- The goal of interventions is to teach students the skills needed to participate and progress in core instruction.
- Interventions will match student needs.
- Intensity and pacing will increase based on performance discrepancy.

Reminders

- Use multiple data sources when making intervention placement decisions
- Data sources to consider:
  - Universal screening scores
  - Accuracy
  - Error analysis
  - Survey Level Assessments
  - Diagnostic assessments
  - Program placement test
  - Progress monitoring
  - Historical screening and progress monitoring data
  - Historical intervention and core in-program data
  - SBA score
  - Teacher input
- If fewer than 80% of all students meet or exceed benchmark (Tier 1, 50th percentile or higher), the team should consider utilizing evidence-based strategies to support core instruction rather than meeting students' needs primarily through intervention support.
- Reading – grades 2 and up: If additional information is needed for particular students following CBM-Reading universal screening, teams may consider administering targeted assessments, such as diagnostic assessments and error analysis. Resources may include: Wonders Diagnostic Assessments; CBM-Reading progress monitoring; CBM-Reading Comprehension progress monitoring.
- Math - grades 4 and up: If teams decide that additional information is needed following CBM-Math CAP universal screening, teams may also consider administering targeted assessments (Tiers 2 and 3), such as diagnostic assessments (i3 diagnostic assessments) and/or error analysis.

ELA Interventions	Tier 1	Tier 2	Tier 3
	ALL STUDENTS With Tier 1 interventions as needed.	STRATEGIC Tier 2 interventions	INTENSIVE Tier 3 interventions
Data	Benchmark, in-program assessments,	Benchmark, in-program assessments, progress monitoring, and lesson gains	Benchmark, in-program assessments, progress monitoring, and lesson gains
Delivery	**Wonders +** Differentiation using **Wonders** and evidence-based instructional strategies	In addition to Tier 1 / Benchmark column: 30 - 45 minutes small group intervention using evidence-based instructional programs and strategies	Emphasis on Teacher-Directed Instruction 60 - 90 minutes of small group, alternate core instruction, matched to needs Grades K & 1 minimum of 60 minutes Grades 2-5 minimum of 90 minutes
Materials	**Wonders**	Evidence-Based Intervention Program • **Six Minute Solutions: Grades K-5** ➢ Sound, sight word, and passage fluency ➢ 24 Lessons per Level; ➢ 6-10 minutes per lesson • REWARDS: **Grades 4-5** ➢ Review of vowel sounds and fluency of multisyllabic words ➢ 25 lessons ➢ 45 minutes per lesson • Read Naturally: **Grades 1-5** ➢ Review and practice of sounds, fluency, comprehension ➢ 20 lessons per level ➢ 45 minutes per lesson • **Phonics for Reading**, ➢ 30-45 minutes per lesson ➢ **First Level:** short vowels, double consonants, consonant blends, consonant digraphs ~ 30 lessons ➢ **Second Level:** long vowels, vowel combinations, CVCe words, word endings, r-controlled vowel sounds ~ 32 lessons ➢ **Third Level:** letter/vowel combinations, prefixes and suffixes, minor sounds of c and g, minor sounds of vowel combinations ~ 36 lessons • **PALS**	Evidence-Based Intervention Program • **Reading Mastery: Grades K-5** ➢ Phonemic awareness, phonics, decoding, fluency, vocabulary and comprehension. ➢ 160 Lessons (K) ➢ 145 Lessons (1+) ➢ 30-90 minutes per lesson, depending on text-level • **Corrective Reading: Grades 3-5** • Phonics and sight words – improves accuracy, fluency and decoding skills • 65 lessons per level • 45-minutes per lesson
Instruction Provided by:	• Classroom Teacher	• Classroom Teacher • Reading Specialist • LAP Staff • ELL	• Reading Specialist • LAP Staff • SPED Staff

Duration of Intervention	Adjust intervention if needed, based on: 4+ data points on progress monitoring graph and in-program data (mastery tests and lesson gains).		
Small Group Size Guidelines	Differentiation Group Size: Ideal – 7 students	Intervention Group Size: Ideal – 6 students	Alternate Core Group Size: Ideal – 4 students
Benchmark/ Screening	FastBridge Assessments 3 times a year	FastBridge Assessments 3 times a year	FastBridge Assessments 3 times a year
Assessments Resource	• Core Assessments (Wonders)	• Core Assessments (Wonders) • FastBridge • Error analysis of progress monitoring • In-program assessments	• FastBridge • Error analysis of progress monitoring • In-program assessments and lesson gains charts
Progress Monitoring	• Follow Pacing Goals • Unit Assessments – extra differentiation for those in need	• FastBridge Bi-weekly at instructional level	• FastBridge Weekly at instructional level

http://fpschools.org/common/pages/DisplayFile.aspx?itemId=28117547

Progress Monitoring Big Ideas

- The purpose is to monitor how much progress a student makes in response to an intervention.
- General Outcome Measures (GOMs) are to be used for progress monitoring.
- Intervention level, intensity, and pace will be considered when choosing a progress monitoring measure and goal.

Reminders

- Refer to Progress Monitoring Progression (pp. 31-32) for recommended measures at each grade level.
- Refer to Goal Setting Guide (p. 35) for recommended goals.
- Student graphs should be "checked" at least monthly.
- Staff administering progress monitoring will be certified in FastBridge and consistently follow standardized administration procedures.
- Progress monitoring itself is not instruction nor an intervention.
- Progress monitoring must be administered via computer or scores may be hand-entered in FastBridge within the week. The system does not allow for backdating of student data.
- "Whole class" progress monitoring is NOT recommended for grades 1 and up.

Progress Monitoring Guidelines, *except for Kindergarten, September - December*

Tier	Progress Monitoring Recommendation
Exceeding Benchmark 75th percentile and above	No progress monitoring
Benchmark - Tier 1 50th – 75th percentile	No progress monitoring
Approaching Benchmark - Tier 1.5 26th – 49th percentile	Optional monthly progress monitoring only if supported by other data points (i.e. in-program assessments, accuracy, transitioning from core-replacement to core)
Strategic - Tier 2 11th – 25th percentile	Bi-weekly progress monitoring
Intensive - Tier 3 10th percentile and below	Weekly progress monitoring *Administer Survey Level Assessment (SLA) and/or error analysis AND consider intervention to ensure appropriate measure and level.

Kindergarten Screening and Progress Monitoring

Timeframe	Screening	Progress Monitoring
August/September	Fall universal screening (FastBridge)	
October – December		- Letter Sound Fluency - Number Identification - ALL kindergarten students - Monthly
January	Winter universal screening (FastBridge)	
January – June		- Continue individual progress monitoring as needed for Letter Sounds and/or Number Identification. - Begin monthly progress monitoring for ALL students using Nonsense Words and Decomposing - Align with Progress Monitoring Measure Progression. See below.

Progress Monitoring Measure Progression

Reading/English:		
Letter sound fluency → Nonsense word fluency → CBM-Reading		
Measure	**Recommended for**	
Early Reading - Letter Sounds - Nonsense Word	Students in any grade with a baseline score below the 10th percentile on Level 1 (Grade 1)	
CBM-Reading	Students in grades 1 - 8, except those with a baseline score below the 10th percentile on Level 1 (Grade 1)	
Other measures are available and may be used as needed determined by student and intervention data.		

Reading/Spanish:
Letter sound fluency → Syllable Reading Fluency → CBM-Reading
Recommended for:
Students grades 1-8, except those with a baseline score below 10th percentile on Level 1 (Grade 1)
Students in any grade with a baseline score below 10th percentile on Level 1 (Grade 1)
Other measures are available and may be used as needed determined by student and intervention data.

Math:	
Number ID → Decomposing → Automaticity → CBM Math CAP	
Measure	**Recommended for:**
CBM Math CAP	Students grades 2-8, with baseline scores above the 25th percentile
CBM Math Automaticity	Students grades 1-8 with baseline scores below the 25th percentile *Only GOMs, not SSMs, are to be used for progress monitoring*
Early Math • Number Identification • Decomposing	Students in any grade with a baseline score below 10th percentile on Level 1 (Grade Level 1) CBM Math Automaticity
Other measures are available and may be used as needed determined by student and intervention data.	

Information to consider when selecting a progress monitoring measure and level:

- Student screening score and accuracy
- Progress Monitoring Guidelines (p. 30)
- Progress Monitoring Progression (pp. 31 - 32)
- Survey Level Assessment results, if applicable. Use professional judgement if scores are similar between levels.
- Intervention/Instruction- skills being taught, intensity, and pace of the intervention
- Historical information- screening, progress monitoring, and intervention data.

Survey Level Assessment Directions - (*Recommended for CBM-Reading only*)

To be used for students who scored below the 10th percentile on grade-level CBM-Reading universal screening

1. Student screening score is at or below 10th percentile.
2. Drop down to the grade level below. Administer assessment per standardized directions. If CBM-Reading, make sure to administer 3 probes and find the median (middle score).
3. If score is between the 25th and 75th percentiles this is likely the appropriate level. If score is below the 25th percentile, drop down another level and repeat.

Progress Monitoring Instructional Weeks Calendar 2019-20

Sept 1	Sept 8	Sept 15	Sept 22
Week 1	Week 2	Week 3	Week 4
Sept 29	**Oct 6**	**Oct 13**	**Oct 20**
Week 5	Week 6	Week 7	Week 8
Oct 27	**Nov 3**	**Nov 10**	**Nov 17**
Week 9	Week 10	Week 11	Week 12
	Dec 1	**Dec 8**	**Dec 15**
	Week 13	Week 14	Week 15
Jan 5	**Jan 12**	**Jan 19**	**Jan 26**
Week 16	Week 17	Week 18	Week 19
Feb 2	**Feb 9**	**Feb 16**	**Feb 23**
Week 20	Week 21	Week 22	Week 23
Mar 1	**Mar 8**	**Mar 15**	**Mar 22**
Week 24	Week 25	Week 26	Week 27
Mar 29		**Apr 12**	**Apr 19**
Week 28		Week 29	Week 30
Apr 26	**May 3**	**May 10**	**May 17**
Week 31	Week 32	Week 33	Week 34
May 24	**May 31**		
Week 35	Week 36		

Goal Setting Big Ideas

- Goals should be set ambitious enough to close the gap, but realistic based on available data (i.e. norms, ROI, intervention, pace).
- Generally, the more intensive the intervention, the more ambitious the goal.

Reminders

- Use Goal Setting Guides (pp. 35 - 38) for initial goal setting
- Information to be considered when setting goals includes:
  - Goal Setting Guides
  - ROI (rate of improvement)
  - Student's performance compared to peers
  - Intensity of intervention, pacing, and instructional level.
- When a student meets a goal, end it and then create a new goal on a new progress monitoring record.
- Do not use FAST Goal (recommended) setting to set goals. Instead, select **"Standard Goal."**

CBM-Reading Goal-Setting Guide

	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Reading Level 8	Approaching Benchmark 26th – 49th percentiles	139 - 164	190	205
	Strategic 11th - 25th percentiles	112 - 138	155	170
	Intensive 0 - 10th percentiles	0 - 111	Consider accuracy, SLA, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Reading Level 7	Approaching Benchmark 26th – 49th percentiles	148 - 176	185	200
	Strategic 11th - 25th percentiles	124 - 147	165	180
	Intensive 0 - 10th percentiles	0 - 123	Consider accuracy, SLA, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Reading Level 6	Approaching Benchmark 26th – 49th percentiles	126 - 154	168	195
	Strategic 11th - 25th percentiles	97 - 125	150	165
	Intensive 0 - 10th percentiles	0 - 96	Consider accuracy, SLA, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Reading Level 5	Approaching Benchmark 26th – 49th percentiles	116 - 141	150	172
	Strategic 11th - 25th percentiles	90 - 115	135	165
	Intensive 0 - 10th percentiles	0 - 89	Consider accuracy, SLA, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Reading Level 4	Approaching Benchmark 26th – 49th percentiles	99 - 124	142	156
	Strategic 11th - 25th percentiles	74 - 98	117	150
	Intensive 0 - 10th percentiles	0 - 73	Consider accuracy, SLA, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Reading Level 3	Approaching Benchmark 26th – 49th percentiles	69 - 96	120	150
	Strategic 11th - 25th percentiles	38 - 68	94	122
	Intensive 0 - 10th percentiles	0 - 37	Consider accuracy, SLA, historical information and intervention details before progress monitoring at this level.	

	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM- Reading Level 2	Approaching Benchmark 26th – 49th percentiles	37 - 65	93	112
	Strategic 11th - 25th percentiles	16 - 36	67	88 - 110
	Intensive 0 - 10th percentiles	0 - 15	Consider accuracy, SLA, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM- Reading Level 1	Approaching Benchmark 26th – 49th percentiles	10 - 19	48	100
	Strategic 11th - 25th percentiles	5 - 9	34	70
	Intensive 0 - 10th percentiles	0 - 4	Consider accuracy, SLA, historical information and intervention details before progress monitoring at this level.	
Teams may elect to set a goal based off ROI			**ROI x # of weeks + baseline score = Goal**	

Early Reading Progress Monitoring Guide

For students with baseline scores at or below the 10th percentile on Level 1 (Grade 1) CBM-Reading:

1) Select Measure: teams should use initial benchmark scores, knowledge of intervention, and professional judgement to select which measure within the recommended sequence will be most appropriate for that student.

   Letter Sound Fluency → Nonsense Word Fluency → CBM-Reading

2) Set a goal: short term goals (6-10 weeks) with an ambitious ROI (1.5 wcpm/week or higher) is recommended.

*Other measures are available and may be used as needed determined by student and intervention data.

CBM-Math CAP Goal Setting Guide

CBM-Math CAP Goals for students Grades 6-8, use the following formula:
ROI x # of weeks + baseline score = Goal

Consider selected intervention.
Set an 8 to 12-week goal with an ROI of 0.2 or greater.
Note that CBM-Math CAP has a slower ROI than other measures.

	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Math CAP Level 5	Approaching Benchmark 26th – 49th percentiles	3.1 - 3.9 (4 is the 50th percentile)	5.0	6.0
	Strategic 11th - 25th percentiles	2.1 - 3.0	3.2	4.5
	Intensive 0 - 10th percentiles	0 - 2.0	Consider accuracy, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Math CAP Level 4	Approaching Benchmark 26th – 49th percentiles	2.1 - 2.9	5.0	7.0
	Strategic 11th - 25th percentiles	1.1 - 2.0	3.5	5.0
	Intensive 0 - 10th percentiles	0 - 1.0	Consider accuracy, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal

	Strategic 11th - 25th percentiles	3.1 - 4.0	5.1	8.0
	Intensive 0 - 10th percentiles	0 - 3.0	Consider accuracy, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Math CAP Level 2	Approaching Benchmark 26th – 49th percentiles	4.1 - 5.9	8.0	10.0
	Strategic 11th - 25th percentiles	3.1 - 4.0	6.1	8.0
	Intensive 0 - 10th percentiles	0 - 3.0	Consider accuracy, historical information and intervention details before progress monitoring at this level.	

Teams may elect to set a goal based off ROI   **ROI x # of weeks + baseline score = Goal**

CBM-Math Automaticity Goal Setting Guide

CBM-Math Automaticity Goals for students Grades 4-8, use the following formula:
ROI x # of weeks + baseline score = Goal

Consider selected intervention.
Set a short-term goal (4-8 weeks) with an ROI of 0.6 or greater.

	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Math Automaticity Level 3	Approaching Benchmark 26th – 49th percentiles	6 - 9	28	42
	Strategic 11th - 25th percentiles	4 - 5	20	27
	Intensive 0 - 10th percentiles	0 - 3	Consider accuracy, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Math Automaticity Level 2	Approaching Benchmark 26th – 49th percentiles	9 - 14	30	48
	Strategic 11th - 25th percentiles	4 - 8	20	30
	Intensive 0 - 10th percentiles	0 - 3	Consider accuracy, historical information and intervention details before progress monitoring at this level.	
	Performance Level	Fall Score	Mid-Year Goal	End of year Goal
CBM-Math Automaticity Level 1	Approaching Benchmark 26th – 49th percentiles	6 - 12	35	55
	Strategic 11th - 25th percentiles	1 - 5	21	35
	Intensive 0 - 10th percentiles	0	Consider accuracy, historical information and intervention details before progress monitoring at this level.	

Teams should use their professional judgement of student and intervention to set goals that will close the gap.
Teams may elect to set a goal based off ROI   **ROI x # of weeks + baseline score = Goal**

Early Math Progress Monitoring Guide
for students with baseline scores below 10th percentile on Level 1 Automaticity

Select Measure: teams should use initial benchmark scores, knowledge of intervention and professional judgement to select which measure within the recommended sequence will be most appropriate for that student.

Number ID → Decomposing → Automaticity

Set a goal: Short term goals (6-10 weeks) with an ambitious ROI (1.5/week or higher) are recommended.

Other measures are available and may be used as needed determined by student and intervention data.

How to Set-Up Progress Monitoring in FastBridge

Create New PM Group

(*) Required

Starting Week *	05/01/2016	Ending in School Year: This Year
Include Summer?*	☐

Goal Setting

Student	Screening	Starting Week	Start	Level	Weekly Gain	EOY			Prior Data?*	Interventions	Student
						Date	Goal	Benchmark			
Adams, Abigail	13.0	04/03/2015	13.0	Gx	1.0 - Realistic	05/01/2016	17.0	0	Yes	R1 ✕ 🖊 ➕	Adams, Abigail

➤ The question mark (?) bubbles provide linked information about the purpose of that column, including:
- ✓ Screening: student's most recent universal screening score on the target measure
- ✓ Start: the student's PM starting score (usually the screening score)
- ✓ Level: grade level of PM material; this will be Gx (grade level) unless changed
- ✓ Weekly gain: the number of measured units of gain per week (e.g., words read correctly)
- ✓ Goal: the student's score goal for the next screening assessment
- ✓ Benchmark: the district benchmark screening score goal (if there is one)
- ✓ Prior data: if prior data from another FAST measure exist, it will be indicated here

Goal Example

Student	Screening	Starting Week	Start	Level	Weekly Gain	EOY			Prior Data?*	Interventions	Student
						Date	Goal	Benchmark			
Adams, Abigail	13.0	04/03/2015	13.0	Gx	1.0 - Realistic	05/01/2016	17.0	0	Yes	R1 ✕ 🖊 ➕	Adams, Abigail

➤ In the above example, Abigail scored 13 words read correctly (WRC) per minute at screening
➤ The problem solving team set a goal for Abigail to master 1 new WRC per week over 4 weeks
- ✓ Strong readers can gain 2 WRC per week in grades 1-5 so this goal is ambitious but reasonable
➤ After 4 weeks of intervention, it was expected that Abigail would have a WRC score of 17
➤ The above PM schedule shows that Abigail did have prior PM data from another intervention

Intervention Details

Conducting Progress Monitoring

- Click on the clock icon to start the assessment

Quick Guide and Links to Franklin Pierce Decision-Making Rules

(Franklin Pierce MTSS-A Guidelines)

- Review of core instruction is necessary when less than 80% of all students are meeting learning targets.
- Students not making adequate progress are provided targeted evidence-based interventions based upon screening results using a triage approach.
- Small group or individual instruction changes:
  - Progress Monitoring data are below the goal line on 4 consecutive data points or at least 9 data points produce a flat or decreasing trend line, school staff should change or intensify the intervention.
- Tier 3 instruction begins when a student fails to progress after two Tier 2 interventions/programs, or when data indicates significant need.

Decision Making Rules
Two questions to guide decisions based on student data:
1. What is the student's goal?
2. How well is the student making progress toward his/her goal (4 Point Rule)?

	Should an instructional program be modified?	Should an instructional program change be made entirely?	Should there be no instructional program change?	Should there be a less intensive instructional program?
Progress Monitoring	Student's trend line or last 4 consecutive data points are below the goal line for the past 6 weeks.	Student's trend line or last 4 consecutive data points are below the goal line for the past 6 weeks, and when the student was checked 6 weeks prior	Student's trend line or last 4 consecutive data points are even with the goal line.	Student's trend line or last 4 consecutive data points are above the goal line. If appropriate, consider increasing the goal before moving to less intensive tier.
Classroom/In-Program Data	Classroom work samples and assessment data indicate that the student is making progress, but not at the expected rate.	Classroom work samples and assessment data indicate that the student is not making progress in the current instructional tier, even after a change has been made.	Classroom work samples and assessment data indicate that the student is making adequate or expected progress.	Classroom work samples and assessment data indicate that the student is making progress above their goal; therefore, the student no longer needs the current intervention and the goal needs to be increased.

ICEL/RIOT Problem-Solving Protocol

I. Instruction: Instruction is how curriculum is taught. This includes instructional decision-making regarding materials and curriculum level. Progress monitoring and the ability to control success rate are also included. Examples of other instructional variables include giving clear directions, communicating expectations and criteria for success, direct instruction with explanations and cues, sequencing lesson designs to promote success and offering a variety of activities and experiences for practice and application. Once an appropriate curriculum is implemented, instruction should be examined for effectiveness starting with the whole group. This can be determined by asking the following questions:

- Have the research-based practices been shown to increase student performance?
- Have effective practices have been implemented with fidelity in ways that students will benefit?
- Do materials have documented efficacy?
- Has a sufficient amount of instructional time been allotted for curriculum implementation?
- Is instruction tailored to meet students' current levels of knowledge? Is instruction organized so that pre-requisite skills are taught sequentially?

II. Curriculum:

Curriculum refers to what is taught. This includes the long-range direction, intent, and stated outcomes of the course of study. It also includes the content arrangement, and pace of steps leading to the outcomes. Before instruction can be aligned with student needs, an appropriate curriculum that has been carefully selected should be in place. To assure curriculum alignment you need to:

- Make sure that the curriculum is aligned and matches appropriate state and district standards and benchmarks.
- Be certain that core components are introduced and reinforced at appropriate levels within the curriculum.

See that the curriculum is taught consistently and explicitly in all classrooms.

III. Environment: The environment is where the instruction takes place. This includes all aspects of the classroom setting such as physical arrangement, rules, management plans, routines, and expectations. It may also include out of class variables such as peer and family influence, and job pressure for students at the secondary level. Environmental considerations cover a wide range of factors. The setting, routines and rules should be closely scrutinized. This includes:

- Making sure that the physical environment (seating arrangement, lighting and noise level) are appropriate; and
- Determining if routines and behavior management plans are conducive to learning.

IV. Learner: The learner is who is being taught. The most important learner variable is his or her current knowledge, sometimes referred to as 'prior knowledge' of the task that they need to learn. This is the last point to consider when planning interventions. Before the student's skills and motivation are called into question, it should be confirmed that the curriculum and instruction are appropriate and the environment positive. Interventions in the student learner domain are not likely to be successful if problems in the other domains are not adequately addressed. Fixed, or unalterable, traits such as a student's "ability," race, gender, or family history are the last domain to consider when planning interventions.

V. Review/Interview/Observation/Test (RIOT)

The Franklin Pierce School District encourages the requirement to collect additional information and assessment data be addressed through what is commonly called the **RIOT** (Review, Interview, Observation, and Test) process, which is typically an integral part of the early intervening period.

Below are examples of data sources and evaluation tools in each of these four categories that might be included in a full and individual evaluation. The collection of this information and data may occur during the MTSS/RTI process and/or after the special education evaluation period begins.

- Review: Student work samples, grades, office referrals, etc.
- Interviews: Of teachers, parents, counselors, the student, and others involved in the student's education.
- Observation: Of the student in specific, relevant settings and of the learning environment.
- Testing: Universal screening, CBMs (depending on tier), classroom tests, district-wide and state tests, functional behavior assessments, etc.

Please refer to website for full decision making guidelines
http://fpschools.org/departments/learning_support_services/m_t_s_s_resources/franklin_pierce_m_t_s_s_guidelines/

MTSS Terminology

Universal Screening/Benchmarking: the process of administering brief measures (probes) to ALL students in a grade at the beginning, middle and end of the school year. The same or parallel probes are used at each administration and the measures are always at the students' grade-placement level. (Introductory guide). Purpose: to identify students that may be at risk in reading/math, and in need of additional support.

Tier 1 (Benchmark): Students who should be able to access general education instruction based on universal screening results. 26th percentile and above for screening purposes. (~80% of students)

Tier 2 (Strategic): Students who may be at-risk, and in need of additional support beyond, or in order to access general education instruction, based on universal screening results. 11th – 25th percentiles. This may be through differentiation or small group instruction. (~15% of students)

Tier 3 (Intensive): Students who may need intensive and/or more individualized instruction. 10th percentile and below. Small group/individualized instruction, likely core replacement. (~5% of students)

Progress Monitoring: More frequent administration of probes parallel to those used during universal screening. Purpose: to determine the effectiveness of the intervention put in place. Typically, this is done weekly for Tier 3 students and bi-weekly for Tier 2 students. Tier 1 students do not need to be progress monitored. See PM memo for procedures including goal setting.

Goal: the score you want the student to reach, by a particular goal date.

Trendline: Is a good indicator of whether or not a student is on track to reaching his/her goal. This will be calculated in FastBridge after at least three progress monitoring scores have been entered.

Rate of Improvement (ROI): This is the student's rate of change, expressed in terms of the average number of score points gained per week. For example, a ROI of 0.8 on RCBM would mean that the student is increasing by an average of 0.8 words read correctly, per week based on existing progress monitoring scores.

Benchmark/Criterion Referenced: comparison of a student's score with designated scores that indicate a good likelihood of academic success.

Norm Referenced: comparison of a student's score with the scores of other students in a local or national reference group of students in the same grade tested on the same measure, at the same time of year. Typically, this is what we will use to determine tiers.

Cut Scores: indicate the break points between the tiers. Typically, in Franklin Pierce they are as follows: Tier 1=26th percentile and above, Tier 2=11-25th percentiles, Tier 3=10th percentile and below, norm referenced.

Lesson Gains: running record of intervention group including lessons taught, student/teacher absences, time in program, pace, group size and student/instructor movement.

General Outcome Measure (GOM): Unlike mastery measures, assessments that include a wide range of skills likely to be taught over the course of the year. GOMs are used to screen and measure general reading or math progress over time. Examples include CBM-Reading, CBM-Reading Comprehension, Early Reading Composite, CBM-Math CAP, Automaticity, Early Math.

Fastbridge Assessments

Key: Progress Monitoring Not Available

Test Name	Screening	Progress Monitoring	Expected ROI	Test Description	Score Reporting
Concepts of Print	K (Fall)			Assesses a student's general understanding of how print is used so other reading skills can emerge. Students who have mastered it should be able to complete basic tasks such as proper page orientation, accurate print tracking, and locating the beginning and ending of sentences.	Total number correct items out of 12 as well as the accuracy percentage.
Nonsense Words	K (Spring) 1st	1st, as needed	.75	This measure assesses whether students can recognize letter-sound correspondences and blend them fluently. It assesses whether students can decode strings of letters and read them fluently while controlling for potential familiarity that students may have when decoding real words.	Total number correct per minute
Letter Names	K (Fall)	K, as needed	1.7	The subtest assesses student's ability and automaticity naming uppercase and lowercase letters in isolation.	Total correct letter names in one minute
Letter Sounds	K	K, as needed	1.5	The subtest assesses student's ability and automaticity saying the sounds of lower-case letters in isolation.	Total correct letter sounds in one minute
Onset Sounds	K (Fall/ Winter)	K, as needed	.75	The subtest assesses a student's phonemic awareness, which is generally defined as the ability to identify and manipulate the smallest units of sound in spoken language. During the Onset Sound subtest, examiners ask the student to identify the first sound in a pictured word.	Items correct per minute
Sentence Reading	1st			The subtest assesses student's reading rate and accuracy.	Words read correctly in one minute
Sight Words 50 Sight Words 150	K (50-Spring) 1st (150)	150 only: 1st, as needed	2	The subtest assesses a student's ability to recognize 50 (kindergarten) or 150 (1st grade) of the most 'high-frequency' words.	Total correct sight words read in one minute
Word Segmenting	K (Spring) 1st	K - 1st, as needed	K: 1.56 1st: .34	The subtest assesses student's ability to separate a spoken word into individual sounds.	Total items correct per minute
CBM-Reading	1st – 8th	1st – 8th, as needed	1.5	The subtest allows to screen and monitor student reading progress. A teacher listens to a student read aloud from a grade-level passage for 1 minute while recording student errors.	Words read correctly per minute
CBM-Comprehension		1st – 8th, as needed		Measure of student's comprehension of a passage that was just read (RCBM) by using story retell and a series of 10 questions about the passage.	Number correct, displayed below CBMR fluency rate. R: Recall; Q: Questions
Match Quantity	K (Fall)	K, as needed	.29	The subtest assesses a student's ability to correctly identify the symbol/numeral that represents a given quantity.	Number of items correct per minute

Number Sequence (NS) K and 1st	K - 1st (Fall)	NS-K only, as needed	.29	The subtest assesses the student's understanding of the mental number line.	Number of items correct
Number Identification	K - 1st (Fall)	K - 1st, as needed	K: 1.05 1st: .79	The subtest assesses a student's ability to correctly identify the name of the symbol that represents a number.	Number of items correct
Decomposing (DC) K and 1st	K - 1st	DC-1st only, as needed	.29	The subtest assesses the student's ability to put together and take apart numbers by using 'parts' and a 'whole'.	Number of items correct
CBM-Math Automaticity	1st -3rd only	1st - 3rd, as needed	.6	It is a timed computer-based assessment of math fact mastery. It measures a student's automaticity with basic math facts (addition, subtraction, multiplication, and division) with both single-skill and mixed skill (i.e., General Outcome Measure or GOM) matched to the math skills typically taught in grades 1 through 3. Note that the assessment is timed at 4 minutes and prorated to a match a 10-minute interval.	The number answered correctly per 10 minutes.
CBM-Math CAP	2nd – 8th	2nd – 8th, as needed	.1	A timed computer-based assessment of applied and multi-step mathematics skills. It consists of math problems aligned with the Common Core State Standards. Assessment times vary (15-30 minutes) by grade level. Note that the actual test may take more or less than 10 minutes, but the score will be prorated to match a 10-minute interval.	The number of problems that a student got correct in 10 minutes.

Goal Setting Reminder:

To calculate a more meaningful, sensitive goal use the Rate of Improvement (ROI) and follow the steps below:

ROI   **X**   **Number of weeks in IEP (Academic Year= 36 weeks)**   **+**   **Baseline Score**   **=**   **Goal**
